### Membership Number

**BT0212729**

**OT27653**

**12-1143-CM**

### Location

**South,** Marion is based in Reading and has a 2 hour capture area

### Clinical Skills and Expertise

Marion has 20 years of clinical occupational therapy experience which provided her with a logical & methodical approach to client assessment and goal setting and helping clients to achieve their goals and objectives. She has excellent interpersonal skills- good communicator, high integrity, caring and empathic.

Marion has proven abilities in leadership within both management and clinical components of work alongside a proven track record of caring for clients and receiving compliments for care and services provided.

Through her time as an occupational therapist Marion gained wide knowledge of OT equipment including hoisting, bathing, mobility, wheelchairs and specialist seating and pressure relief and has broad knowledge of major home adaptations including wet rooms, ramping and through-floor, platform and stair lifts. Marion is experienced in all of the following areas:

- **Spinal**
- **Orthopaedics**
- **Neurological conditions**
- **Amputees**
- **Paediatrics**

### Key Case Management Skills:

- Strong planning, organising and monitoring skills.
- Excellent report writing skills.
- Proven clinical and clinical leadership skills.
- Multi-agency, multi-disciplinary working.
- Excellent communication skills with clients, carers and agencies involved.
- Clinically reasoned, proportionate recommendations
- Client centred, realistic goal planning and execution

## Personal Profile

Marion has 20 years' experience of working within the NHS and Social Services, nearly 10 of those years both as a clinician and manager in the NHS having responsibility for all community services based in 5 community and hospital settings in north and east Hampshire. Marion managed clinical staff based in both community and ward settings including Occupational Therapists, Physiotherapists, Community Nursing, out-patients therapy services and the Wheelchair Service. She gained much knowledge and insight into all services provided for patients in the community.

She had close links with all statutory services including the 3 feeder acute hospitals and therefore has an understanding of how all statutory services are interlinked. Marion retired from NHS services as a manager in June 2012 but continued to work as a locum Occupational Therapist within a variety of community, acute based NHS and social services settings. Marion has now left all statutory services to concentrate on her work as a case manager with Unite Professionals.

Marion finds her work with Case Management most fulfilling and she enjoys continuing to help clients with managing their lives following traumatic and life changing accidents and helping them on their road to recovery. She also mentors new Case Managers and enjoys passing on her knowledge and skills to them, supporting them with their first clients and with the complex report writing.
