Clinical Skills and Expertise

Phillipa has been working as a case manager since 2010, with both adults and children. She has experience of assessing a client's needs, setting appropriate goals and implementing care and rehabilitation packages as required, to develop their independence and skills.

Phillipa's area of expertise is brain injury assisting client's to develop their skills in all areas of life, including daily living, leisure, social and work. Phillipa has worked both privately and within the NHS and has an excellent working knowledge of NHS treatment pathways and when these may need supplementing with additional services or intervention. Phillipa is experienced in all of the following areas:

- **Brain Injury**
- **Orthopaedics**
- **Spinal Injury**
- **Complex Trauma**
- **Mental Health**
- **Elderly**

Key Case management skills

- Excellent knowledge of local services
- Able to establish good working relationships with NHS clinical teams
- Specialist in the assessment of functional, emotional, psychological and physical capabilities building a holistic understanding of the client.
- Excellent communication skills with clients, carers, families and agencies involved
- Applies evidence based practice in goal setting and intervention
- Excellent awareness of cost efficacy of intervention
- Effective decision making both within a team and independently
- Making recommendations and implementing care packages to meet the needs of the client.
- Reviewing goals on a regular basis to progress the client's rehabilitation.
- Liaison and collaborative working with the MDT and a variety of agencies across

- hospital and community settings.
- Making recommendations regarding specialist equipment to aid a client's independence.
- Providing supervision to staff, support workers and students.
- Experience of working under the rehabilitation code.

Personal Profile

Philippa qualified as an Occupational Therapist in 1997. She has worked both in South Africa and in the UK developing her skills as a clinician. Philippa has worked in hospital and community settings with a variety of clients with neurological disability, orthopaedic injuries and mental health issues.

She has been working in the case management field since 2010. Although brain injury is Philippa's area of expertise she has many transferable skills and has experience in a variety of settings.
